### **DETAILED ACTION**

1. Claims 9-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims appear to be a literal translation into English from a foreign document and contain grammatical and idiomatic errors. In claim 9, line 7, "its end face" lacks antecedent basis. Further in claim 9, line 12/13, "the remaining plug body" lacks antecedent basis. On line 14/13 of claim 9, "the latter" lacks clear antecedent basis. On line 17 of claim 9, "fixed there" is unclear and indefinite in nature. On line 18 of claim 9, "the radial direction" lacks antecedent basis. In claim 9, line 19, "its plug body" lacks antecedent basis and finally on the last line of claim 9, "a closing edge" lacks clear structural location and definition. In claim 10, "the margin" and "the end face of the plug head" lacks antecedent basis. Claim 12 fails to positively recite the structure set forth and correlate it with other positively recited structure. In claim 14, "the outside of the sealing ring" lacks antecedent basis. The remaining claims 13-28 contain like deficiencies and should be reviewed and amended into proper claim form commensurate with U.S. practice.
2. Claims 9-28 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
